**Homeworld:** N/A

**Location:** Andromeda Galaxy, Alpha Quadrant, The Verge

The Conglomerate is a shadowy organization which wields a great deal of power in the Verge, an area of space in the Andromeda Alpha Quadrant. Little is known about them, except that they have an information network to rival the Serric, that they deal in trade of various varieties, and that they dislike having their business meddled with.

They are known to have been responsible for the addiction of the population of Prisk to the narcotic known as 'mist,' and they introduced a viral plague to the planet Zerim in order to send a message to the Federation. The exact races, headquarters, and range of their operation are not known at this time.
